

Rosanna<sup>TM</sup>  
SPRING & SUMMER 2022

When the ice thaws, the buds swell, the sun reappears, it can only mean one thing: spring is triumphantly announcing itself again. And that means one thing – it's time to celebrate.

This season Rosanna introduces three playful and vibrant new lines. The Spring 2022 collection is all about the exuberance we can't help ourselves from expressing when the world comes alive.

Stardust couples the once-again trendy yet age-old practice of celestial divination with a much less mysterious, yet no less ancient tradition – cocktail hour! Stardust encourages wonder at the workings of the heavens, and quaffing your favorite refreshment as you do.

Our second new collection, Nature's Table, has two distinct modes. The first: pristine whiteware in unique natural forms meant to showcase the vivid colors of spring and summer produce. The second: a colorful explosion of joyful, hand-painted watercolor blooms. Whether you live in the heart of a city or far off in the quiet of the countryside, Nature's Table enables everyone to create a happy, colorful environment that boasts the beauty of nature all year round.

Our third new collection, Cook, Eat, Love, emphasizes the fun side of cooking with an enthusiastic homage to Italian pasta of all shapes and sizes. Hand-painted watercolor designs on serveware and kitchenware essentials encourage you to spend time in the kitchen concocting delicious creations for a crowd.

This season, Rosanna invites you to revel in Spring's return with a light heart, delight, lots and lots of color.
